

Sophs, Juniors, Seniors Vote Tuesday

Students Initiate Baker Memorial

Matthews Is Elected Committee Chairman

On October 30, 1950 the Everett Moore Baker Memorial Committee was formed to establish a student memorial for the late Dean Everett Moore Baker.

In the days immediately after Dr. Baker's death in late August, a great number of the students expressed a desire to do something to express their feeling of personal loss and their appreciation for the many ways in which Dr. Baker strived toward an integrated campus life, a broader educational policy, and toward the primary consideration of students as individuals (with individual problems).

An initial meeting was called on October 9th of students who were known to have expressed interest in some kind of action by M.I.T. students in Dr. Baker's memory. At this meeting and at three successive weekly meetings, a total of about thirty-five students and recent graduates plus a few members of the Faculty and Administration informally discussed the various possibilities for a memorial. Many others expressed interest, but, for one reason or another, were unable to participate in the discussion meetings.

At the October 30th meeting, it was decided to ask for volunteers to serve on a seven-man Committee to establish the student memorial. From the list of those who volunteered the following were selected:

Warren Delano, '50, now doing graduate work here, and formerly Chairman of the Westgate Council.

(Continued on Page 4)

W.M.C. Threatens Denial of Rights To Rule Violators

Walker Memorial Committee announced today that all activities which have not complied with certain regulations of the Institute Committee and which do not do so before next Friday, November 17, will be denied all rights and privileges granted them as Undergraduate Association activities.

In order to fulfill these necessary requirements, activity heads must check as to the correctness of their constitutions in the WMC office and also file a list of officers.

Default by Activities

Activities which have not met these requirements to date are the following: Camera Club, Tech Flying Club, Track Club, Model R.R. Club, Tau Beta Pi, the Techtet, American Management Association, American Institute of Mining and Metallurgical Engineers, Architecture Society, Association of Civil Engineers, Institute of Aeronautical Science, Institute of Food Technologists, Physics Society, Sedgewick Biological Society, and Society of Automotive Engineers.

In addition another group of organizations, believed to be defunct, will be officially dropped from the roster of activities if the Walker Committee does not receive some word about them. These are Takli, Techronics, Progressive's Club, Psychic Research Society, and Pi Tau Pi Sigma.

"LAST OF THE MOHICANS"

Well boys, we never thought it would happen. Here he is, the last resident of the Plywood Palace, Building 22 to the uninited, walking out of the old place leaving it deserted to cockroaches, dust, and radiation scientists. His name — Marvin Lekstrum '54.

Groundbreaking Ceremony For Dorrance Lab Nov. 15

President Killian has announced the date of the ground-breaking ceremony for the new John Thompson Dorrance Laboratory as Wednesday, November 15, at 11:30 a.m. The new building which will be adjacent to Building 8 will house the departments of Biology and Food Technology.

With Dr. Karl T. Compton pre-

siding, Professor Herbert L. Beckwith of the Department of Architecture will speak on the architectural aspects of the building after which President Killian will formally accept the structure from Oliver G. Willits, vice-president of the Campbell Soup Company.

Dorrance Was Alumni

A grant of \$1,000,000 to the Institute was made in memory of J. T. Dorrance, Class of 1895, who was president of Campbell Soup Company for sixteen years. The grant, appreciably swelling the total of the Development Program, is to support research in biology, food technology and related fields.

Mrs. John T. Dorrance, widow of the alumnus in whose honor the building has been named, will complete the ceremony with the actual ground-breaking ceremony.

Saarinien Will Design Chapel And Auditorium

Announced today was the appointment of Eero Saarinen as architect for the Institute's proposed new auditorium and chapel. The building will be erected on Memorial Drive west of Massachusetts Avenue.

Funds from the Kresge Foundation amounting to \$1,500,000 are to be used for the construction of the building. This new center with a seating capacity of 1200 should satisfy the need at the Institute for ample lecture, concert, and religious facilities.

Mr. Saarinen will soon begin work on plans for the auditorium and chapel. His father, Eliel Saarinen, a famous Finnish architect, has collaborated with him in the design of many famous buildings. In 1948 the father and son team won first prize for their plans of the Jefferson Memorial in St. Louis.

Friday J. P. Sold Out, Sat. Tickets On Sale

The Junior Prom Committee has announced that the first night has been sold out. Tickets for the second night only will now be sold.

The Stardust Ball will be held at Hotel Copley-Plaza with Tex Beneke and his orchestra, Friday, November 17, and the "Bar Night" evening will be at Walker Memorial, Saturday, in a more informal mood with free beer, gambling and the Techtionians.

Wellesley girls will be given two o'clock privileges for the occasion. They must be back at Wellesley Square by two a.m. where a bus will pick them up. All girls must sign up at Dean of Residence by November 16.

JP, Senior Week Committees Ring Chairman To Be Elected

Sophomores, Juniors, and Seniors will cast their votes to elect, respectively, the Junior Prom Committee, the Senior Ring Committee, and the Senior Week Committee, Tuesday, November 14. Voting booths will be located in the lobby of Building 10, and at the junction of Buildings 2, 4, and 6.

Students may mark their ballots at these polling stations from 8:30 a.m. until 5:20 p.m. and must in order to exercise this privilege present their 1950-51 registration card.

Forum Will Discuss Prospects Of Ten Humanities Terms

Should Technology students have 8 or 10 terms of humanities? A panel of two students and two professors will discuss this question at the Student Faculty Committee forum at 5:00 p.m., Monday, November 13, in Room 10-250.

Professor Sherwood, Dean of Engineering, and Professor Gilliland of the Chemistry department will represent the faculty. The student representatives will be Thomas G. Hagan '51, Editor of *The Tech* 1950 and Sander Rubin '50, former editor of *The Tech*. Professor Rule, of Course IX and the Graphics Department, will be the moderator.

The subject of the discussion comes from the Lewis Report's conclusion that Institute students should be required to take 10 terms of humanities.

Audience Participation

Each speaker will give a short statement of his position and then the meeting will be thrown open to a general question and discussion period in which the audience may participate.

The Student Faculty Committee feels that the forum will give the students a chance to express their feelings and opinions. If the forum is successful future forums will be planned along similar lines.

Seniors will have the task of electing ten classmates of the sixteen candidates to the Senior Week Committee; the Juniors are to select one Senior Ring Committee Chairman from six aspirants; and of the eleven candidates for the Junior Prom Committee the Class of 1953 will be requested to choose five.

Petition Display

The nomination petitions have been on display in the lobby of Building 10 since Thursday, November 9 and will continue through election day. They will also be displayed at the voting booths on November 14.

The candidates have been informed that there may be no electioneering in the lobby of Building 7 at any time; no electioneering in the lobby of Building 10 or within 50 feet of any other polling booth in any other location on election day; candidates will be responsible for removing their posters and campaign material after the elections.

Candidates for all positions are pictured on Page Two of this issue.

Placement Sponsors Interviews, Lectures By Men Of Industry

Opportunity to meet representatives of industry here at Technology instead of contacting them elsewhere is emphasized by the Student Placement Bureau in their present program of lectures and interviews. The bureau is sponsoring talks by men from industries throughout this area in order to acquaint Seniors with the processes of job-hunting. Two lectures will be held this month.

First Lecture Nov. 14

The first lecture will be conducted next Tuesday, November 14, for members of the class of 1951 and graduate students. Prof. A. L. Townsend, Placement Advisor of the Department of Mechanical Engineering, will speak on the topic "How to Interview and How to Get a Job," a study of the general processes of interviewing and job-getting. He will give his talk twice during the day in Room 10-250, at 11 a.m. and 3 p.m.

Mr. Donald S. Roberts of the General Electric Corporation will give the second talk on November 28, also at 11 a.m. and 3 p.m. in Room 10-250. Mr. Roberts' subject will also deal with job-placement in industry.

Professor C. E. Tucker, Student Placement Officer, urges that all Seniors take advantage of this opportunity to learn about job placement by attending these lectures and registering with the bureau for interviews with men from industry. He has stated that a cross-section of this country's large engineering firms comes to Tech during the year seeking good men. The Placement Bureau arranges interviews here on the campus, making it unnecessary to travel while looking for a job.

South Koreans Established Democratic Government

By PROFESSOR THOMAS H. D. MAHONEY
Department of History

Editor's note: This is the third of a series of articles written especially for THE TECH by Professor Thomas H. D. Mahoney describing Korea and the part it has played in international relations since the close of World War II.

For the first democratic election in the history of Southern Korea, which took place in May, 1948, almost 80% of the eligible voters registered, and over 92% of these cast their ballots on the day of election. The United Nations Temporary Commission on Korea, under whose auspices both registrations and elections had been carried out, called the results of the elections "a valid expression of the free will of the electorate in those parts of Korea which were accessible to the Commission and in which the inhabitants constituted approximately two-thirds of the people of all Korea."

The representatives elected by the free choice of the Korean people convened for the first time as the National Assembly three weeks later and elected as chairman Dr. Syngman Rhee. Approximately one-third of the seats in the National Assembly were left vacant since they were reserved for North Korea's one-third of the country's population. The new body carried out its work in exemplary fashion and achieved its major task, that of drafting a constitution for the new Republic of Korea, with speed and precision. To fill the office of President of the Republic, the National Assembly elected its chairman, Dr. Rhee, with Si Yung Lee, an original member of the Korean Provisional Government in China, as Vice President.

Thus, under United Nations' auspices the new state was born free and democratic. In violation of their pledged word and in open defiance of the United Nations, the Russians created a puppet state in the north which they styled the Democratic People's Republic of Korea. This latest Russian satellite was proclaimed on September 9, 1948. Its true character which, of course, has been revealed in grisly fashion during the recent fighting, could have been gathered earlier from a report issued by the United Nations Commission on Korea, which replaced the earlier temporary body. This said in part: "The northern regime is the creature of a military occupant and rules by right of a mere transfer of power from that Government."

EDITORIAL

DISINTEREST

We were stopped short a couple of days ago when we realized that although the newspaper headlines had screamed "Crisis" when the Chinese Reds entered the war in Korea, we had not heard a single comment about the development from any fellow student. We started thinking again about the Techman's traditional apathy toward his environment, and we decided that we would have to change our opinion of what causes this sometimes amazing indifference, characteristic of so many students here. We had always assumed that two factors were primarily responsible: (1) Techmen don't have much time to spare from studies, and (2) they refuse to bother about things which do not directly affect them. The first of these is of minor significance, for the second is the one which places the ultimate limitation on a man's social consciousness. The second factor is the one which we did not fully understand, for Techmen refuse to bother not only with things that do not affect them but also with a great many things which actually do directly concern them.

The Techman extends his indifference from those things which do not concern him to those things which he cannot change even if they do have a serious effect upon him. The motto is "You can't fight City Hall." If you can't fight City Hall, what's the use of finding out what's going on at City Hall? This certainly is a most reasonable attitude. No sense attempting the impossible. Don't joust with windmills.

All this is very fine until a touch of cynicism causes us to include the difficult or barely possible among things which are not worth attempting, and then we have made the fatal mistake. If we feel that we are personally incapable of bringing about any improvement in our environment, then we are forever stuck with what we've got. "City Hall is rotten," say many men, "and you can't fight City Hall." City Hall will never get any better through anything that these men do.

The whole thing is made to sound paradoxical in a little syllogism preached by the late, great Irishman. "Reasonable men," said Shaw, "adjust themselves to their environment. Unreasonable men attempt to change their environment to suit themselves. Therefore all progress is the work of unreasonable men." Shaw's "reasonable man" of course is one who does not attempt the impossible, and he is injected with just enough of the deadly poison of cynicism to think that his personal efforts cannot significantly change his environment.

In regard to almost everything but engineering, the engineer is often this kind of "reasonable man." He is by no means satisfied with "politics," but he doesn't bother to try to improve them because he feels that his personal efforts will accomplish nothing. He is reasonable enough, as an engineer, to leave a problem alone unless it is capable of solution. He is just cynical enough to think that "social problems" can never be solved.

This, we feel, explains the greater part of the much-touted lack of social consciousness of a great many scientists and engineers, all very "reasonable" men, and the same attitude is responsible for the indifference of many students here toward what goes on around them. They are uninterested in what happens in Red China, and they don't care who was elected this week. We propose that in matters of this sort, we all become just unreasonable enough to be interested.

Candidates In Tues. Election

Senior Week Candidates

Candidates for Senior Week Committee shown above are: 1. Theodore T. Hader, 2. Marvin C. Grossman, 3. George W. Meckert, Jr., 4. Marc J. Pearlman, 5. Robert B. Butters, 6. Edward E. Huckle, 7. Raymond G. Gruwell, 8. James M. Shepherd, 9. Martin H. Miller, 10. Paul H. Grady, 11. Frederick J. Bumpus, 12. Martin Greenfield, 13. George C. Vogel, 14. John W. Conley, 15. Robert D. Thulman. Not pictured is Eleanor L. Semple.

Senior Ring Candidates

Candidates for Senior Ring Chairmanship. Pictured above are: 1. Charles M. Lockerby, 2. Charles A. Bell, 3. Merwin C. Blum, 4. George A. Bradley, 5. Leonard S. Polander, 6. Henry G. Hohorst.

Junior Prom Candidates

Candidates for Junior Prom Committee are: 1. George J. Fuld, 2. Julian M. Greenebaum, 3. Alexander Gutwurz, 4. Alexander Danzberger, 5. Bianca B. Margulies, 6. Robert B. Ledbetter, 7. Jacob Pinkovitz, 8. Jay F. Koogle, 9. Joseph M. Cahn, 10. Martin Wohl, and 11. Bennett Sack.

Letters to the Editor

To the Editor

The Tech

Dear Sir:

On November 15 and 16, the Technology Christian Association, in behalf of the American Red

Cross, is conducting a blood-donation drive in the M.I.T. community. It is my hope that this blood-donation program will have the sympathetic support and participation of all who feel that they can properly make a blood donation.

It is especially important at this juncture because of the need for plasma and whole blood in Korea

and to replenish supplies greatly depleted by the demands of the Korean campaign.

This is a way in which we can make a direct and personal contribution in behalf of the men who have been wounded in battle.

Yours sincerely,

J. R. KILLIAN, JR.
President

Handicap Results

The following list contains the percentage standings of the leading ten contestants in the Intramural Football Pool. Method for awarding the percentage points was based on the best four out of five Handicapped Forms of each contestant. It must be remembered that this is not a final rating, but is dependent on the results of the round-robin play-offs between the League Champions.

The contestants and points are as follows:

1. Robert D. Brown	Grad House	296.5
2. Ed Stringham	S.A.E.	261.5
3. Jay Berlove	New Dorms	257.5
4. Ev Chambers	S.A.E.	254.3
5. Joe Gaven	New Dorms	252.1
6. Bill Powell	New Dorms	244.0
7. John Ayerigg	New Dorms	238.6
8. Harold Tepper	Bemis	228.9

Close Race Expected Monday In N.E. Cross Country Title Meet

A wide open contest appears likely next Monday afternoon when the 1950 New England Cross Country season reaches its climax in the New England Championships at Franklin Park. Twenty teams are entered in the varsity race, with a total of 192 runners scheduled to start.

In sharp contrast to last year, when Bob Black and his Rhode Island teammates ran away with the race, half a dozen teams rate as strong contenders and several others, including the Institute Harriers, could pull an upset.

The University of Connecticut,

with a squad built around Bruno Giordano, Adolph Grimm, and Dave Bolvin, is given a slight edge in the fight for the crown. Giordano, one of three undefeated runners entered, is favored to take the individual title on the basis of two record-breaking performances on the UConn course. Boston University, sparked by Dick Fitzgerald, and Rhode Island State, headed by Ray Lister, rate second and third.

Nicholson Highly Rated

Oscar Hedlund's Tech Harriers, although undefeated thus far this season, will find it difficult to make the first three. Captain Bill Nicholson, undefeated in three races, could cop the individual crown, but lack of experience will hamper the Beaver's predominately sophomore squad.

In the Freshman meet, with fifteen teams entered, Providence, (Continued on Page 4)

Tech Basketball Team Begins Practice; Five Varsity Veterans Back

Technology's basketballers have been working out for more than a week now under Coach Cleo O'Donnell, in preparation for their first game, a clash with Harvard to take place December 1, during Tech's-a-Poppin weekend.

Five regulars from last season's squad are back to form a nucleus for O'Donnell to build on, along with several of last year's J.V.'s and a considerable number of Warren Berg's 1949-50 frosh contingent. The first line veterans are headed by Captain Leon Hong, whose speed and shooting gave the Beaver fast-breaking attack a noticeable boost last year when he returned to action in mid-season after having been sidelined with a leg injury. Also back from last season's starters is a quartet of Juniors, consisting of center Hank Hohorst, forward Mike Nacey, and guards Herb Glantz and Larry Garthe.

BEAVER CAPTAIN

Senior Leon Hong, who will captain the Technology basketball team for the coming season.

Sophs to Play

Returning from the J.V.'s will be center Larry Hitchens, forward Dick Jankowski, and guard Julie Kassig. Many sophomores are expected to play at least part-time with the varsity this year. The large number of Sophs out include last year's high scorer for the frosh, driving forward Russ Kidder, and another high scoring forward, southpaw Bob Barlow. Some height will be furnished by big Mandy Manderson at center, another one of Berg's big scorers. Out of last year's crop of ball-handling guards three standouts will be back, Dick Marclano, Eddie Wilson, and Jack Ballantine. Other returnees include George Hegeman and Bob Van Meter.

Thompson Out

Guard Ronny Thompson, who saw considerable service with the varsity during the latter half of last season will probably be unable to play at all this year, because of a broken hand, sustained while playing intramural football.

The frosh have been working out for several days under the direction of coach Phil Hardy, but it is still too early to expect any definite developments in this sector.

First Game at Harvard

This season's schedule differs from previous ones in one important aspect. The Tech's-a-Poppin basketball game, usually played in the Armory will be played away this year, up at Harvard. Some of the factors which influenced the A.A. to make the switch, were better lighting, better playing surface, and a promise of 1,000 seats reserved for Techmen.

Varsity home games are always preceeded by either a freshman or Junior Varsity game at 6:30. Varsity games are scheduled to start (Continued on Page 4)

Soccermen Defeated By Brown Bears 4-0

Last Wednesday the soccer team traveled to Providence to tangle with Brown in a game which saw the Engineers go down to defeat by a score of four to nothing.

In the first period neither squad was able to score and the same was true of the second frame when Tech made several attempts to score but could not seem to put the ball between the goal posts.

In the second half Brown lost no time in getting started as they scored the first goal of the game in the first thirty seconds of play. Throughout the rest of the quarter the Beavers were able to hold the Bruins scoreless, but in the last frame Brown clinched the game with three more goals. The offensive star of the day for the Bruins was Vreland with two of their four goals to his credit.

Rugby Team Plays McGill

After an encouraging first game against Harvard which ended in a scoreless tie, the Beaver Rugby Team will journey up to Montreal this weekend to take on the ruggers from McGill University.

off the beat

By RICHARD J. POWELL

The Julliard String Quartet will play at M.I.T. a week from this coming Sunday. The chamber ensemble, although comparatively new, has already established itself as one of the country's leading quartets, winning considerable reputation as masterful interpreters of the Bartok Quartets. Last season the Julliard Quartet performed at Harvard's Sanders Theatre the six string quartets of Bela Bartok, all of which they have recently recorded for Columbia on three long playing records (ML 4278-80).

As the Division of Humanities first concert this term, the Julliard Quartet will present a program of chamber works in Huntington Hall on Sunday afternoon, November 19, at 4 p.m. There is no admission charge for this concert, the tickets to be given out at the entrance to the English and History Library on Wednesday and Thursday, November 15 and 16, between 2 and 4 p.m. The exact program of the concert is not known at the present, but will be announced at the beginning of next week.

On the Monday evenings of November 13 and 20, the Cambridge Collegium Musicum is presenting two concerts of chamber music by Wolfgang Amadeus Mozart. These will be the final two concerts in the series that the Collegium Musicum is offering at the Sanders Theatre, Harvard Square. Erwin Bodky, piano; Wolfe Wolfensohn, violin and viola; and Samuel Mayes, 'cello, are the featured performers for this series; the list of assisting artists includes: Raymond Allard, bassoon; James Papoutsakis, flute; Joseph de Pasquale, viola; Louis Speyer, oboe; James Stagliano, horn; Gregory Tucker, piano, and others.

The program for Monday, November 13, brings to performance the following works of Mozart: Quintet in E flat major for piano, oboe, clarinet, horn, and bassoon (K. 452); four piano pieces; Sonata in E flat major for violin and piano (K. 481); Trio in E major for piano, violin, and 'cello (K. 542); Adagio and Rondo in C major for glass harmonica (Celesta), oboe, flute, viola, and 'cello.

The Quintet in C major for two violins, two violas, and 'cello (K. 515), the Trio in E flat major for clarinet, viola, and piano (K. 498), two pieces for piano four hands: Fantasia in F minor (K.608)

AFTER HOURS

DANCES

The Chandler School for Women is giving an acquaintance dance tonight, Friday, November 10 in Morris Hall, Walker Memorial from 8-12. As Chandler will be represented by 300 girls the T.C.A., which is handling ticket distribution at Technology, will sell only 300 tickets to Tech men. Tickets may be purchased at the T.C.A. office at 50 cents per person. Hal Reeve's and his orchestra will provide the music which will be carried over W.M.F.T.

A square dance will be held by Emerson Boston Club at the Emerson College Theatre, 430 Beacon St., this evening November 10 at 8 p.m. An admission charge of 75 cents will get you into this acquaintance dance, where there will be instruction for those uninitiated in the fine art of square dancing.

This evening there will be an acquaintance dance at the Chalet, 86 Commonwealth Ave. from 8-12 presented by the Junior Philomatheia. Tickets at the door \$1.00.

and Variations in G major (K. 501), and the Quartet in E flat major for piano, violin, viola, and 'cello (K. 493) comprise the program for the following Monday, November 20.

The opportunity of hearing the chamber music of Mozart competently performed in recital is altogether too rare. These concerts, which embrace both obscure and well-known Mozart scores, at least provide a temporary abatement of this need, and should be regarded with some covetousness.

Cross Country

(Continued from Page 3)

Northeastern, and New Hampshire rank as favorites. John Kelley of Boston University, already promising to replace Black as outstanding New England distance man, should take the New England individual title.

Shakespearean drama leaves me cold;
And Goldsmith's mighty slow;
They may have held the public then—
Now Luckies steal the show!

By Joan Schroeder
Texas State College for Women

I took a course in Chemistry;
I tried a new reaction;
I lit a Lucky with a match
And got real satisfaction!

By Ronnie Friedman
Columbia University

Be Happy - Go Lucky!

The campus bells ring out the air
That all the students like,
But the air the campus bells prefer
Is filled with Lucky Strike!

By Morton Greenberg
UCLA

Enjoy your cigarette! Enjoy truly fine tobacco
that combines both perfect mildness and rich
taste in one great cigarette - Lucky Strike!

Perfect mildness? You bet. Scientific tests,
confirmed by three independent consulting
laboratories, prove that Lucky Strike is milder
than any other principal brand. Rich taste?
Yes, the full, rich taste of truly fine tobacco.

Only fine tobacco gives you both real mildness
and rich taste. And Lucky Strike means fine
tobacco. So enjoy the happy blending that com-
bines perfect mildness with a rich, true tobacco
taste. Be Happy—Go Lucky!

THROW AWAY
NICOTINE

When the Filter in Medico
Pipes or Cigarette Holders
turns brown, throw it
away with the nicotine,
tars, juices and flakes
it has trapped. Insert
a fresh Filter to get
cooler, cleaner,
drier, purer
smoking!

Real
Filters
...not mere
hollow tubes
